As Eksim Teknoloji ve Güvenlik Çözümleri A.Ş., operating in the field of software services where information is expected to be accessible anytime and anywhere, we are committed to maintaining the highest level of information security through the following core principles:

- a) Confidentiality:** Ensuring that information is accessible only by authorized individuals.
b) Integrity: Protecting information against unauthorized modification and ensuring that any alteration can be detected.
c) Availability: Ensuring that information is accessible and usable by authorized users whenever needed.

Aware that the information produced within our company must be protected with the highest standards of security, Eksim Teknoloji ve Güvenlik Çözümleri A.Ş., in line with its mission and vision, aims to manage information in both printed and electronic environments according to the principles of “confidentiality, integrity, and availability,” in compliance with legal regulations and by applying risk management methodologies.

For this purpose, our company is committed to:

- Fulfilling the requirements of information security standards,
- Complying with all applicable legal regulations related to information security,
- Identifying risks related to information assets and managing these risks systematically,
- Continuously reviewing and improving the Information Security Management System,
- Conducting training programs to improve technical and behavioral competencies and increase information security awareness,
- Developing primary policies to support information security practices,
- Clearly defining duties and responsibilities in order to establish a successful and effective information security awareness process.

As a result, the purpose of this Information Security Policy is to protect information assets, ensure the confidentiality of information and data, safeguard them against unauthorized access that may compromise their integrity, and thereby prevent situations that could damage the trust and reputation of our company.

We hereby commit to these principles and objectives.
